## Extended Enterprise Suite

### Microsoft Windows 7 is Here and Sage Accpac is Ready!

We are pleased to announce that Sage Accpac ERP 5.6, 5.5 and 5.4 (current version and 2 prior versions) will be supported on Microsoft Windows 7 upon the General Availability of Sage Accpac Version 5.6 in early December 2009. Windows 7 support will be limited for certain configurations in the Extended Enterprise Suite and some 3<sup>rd</sup> party software component that operate together with Sage Accpac due to timing of product release and legacy issues.

#### Microsoft Windows Server 2008 R2 Support

Sage Accpac ERP 5.5 and 5.6 will be supported on Windows Server 2008 R2 (32bit and 64-bit) in January 2010.

Please refer to the 5.6 Compatibility Guide and the 5.5 Support Platforms Matrix document (<http://www.sageaccpac.com/products/systemrequirements>) for further details.

**Crystal Runtime XI R2** – this is the embedded Crystal Report within Accpac for printing standard and customized forms and reports. This has been tested to be compatible with Windows 7 but will only have limited support by Sage and SAP/Business Objects.

**Crystal Reports 2008** – will only be supported on Windows 7 with CR 2008 Service Pack 2. This SP2 is available within the Crystal Reports 2008 in-product Update functionality or at the Sage Accpac Technical Center web site in Product Updates Downloads area (<http://support.accpac.com/TechSupport/bpts/a4w/product/>) when Sage Accpac ERP 5.6 is released.

**Pervasive SQL Database Engine** – will have support for Windows 7 with the full release of Pervasive SQL 10.3, available in January 2010.

#### Sage AccpacOnline –

- **Hosted Sage Accpac** - will have an updated Citrix ICA client available for download from the LogOn Page (<http://www.sageaccpaonline.com/logon/logon.aspx>) in late December 2009.
- **Sage Accpac CRM Integrated with Hosted Sage Accpac** - will be supporting Microsoft Internet Explorer 8 on Windows 7 in late December 2009.

**SageCRM 6.2e** – will have support for Windows 7 in December 2009 as a client workstation only. SageCRM 7 will have full support on Windows 7 in March 2010.

**Sage Accpac HRMS** – will be supported on Windows 7 with the release of version 10.0 in December 2009.

**Sage FAS** – will be supported on Windows 7 with the 2010.1 Tax Update, available in February 2010.
